

INFOGRAPHICS ILLUSTRATIONS HOW TO USE

STRUCTURE: All illustrations are placed in “illustrations” folder.

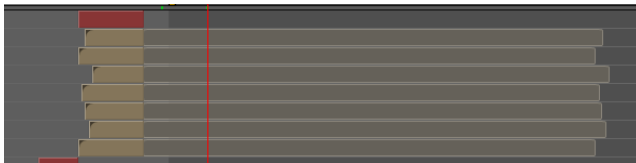

Animation of appearance is already done. Just place an illustration in your composition.

COLOR: If you want to change color of some picture part (like red carcass of car). Add Hue/Saturation effect on composition (like “Sport Car”). Then click on channel control and choose “red”. Now you can change “Master Hue” value to change carcass color.

ANIMATION: Look throw “Main Preview” composition to understand how were animated text layers.

- Click “U-key” on layer to see keyframes.
- Select them.
- Click “Ctrl-C” to copy
- Type your text anywhere.
- Thank you for purchasing!
- Select text layer
- Click “Ctrl-V”
- Animation done

DURATION: To cut “tail” of layers

- Select layer.
- Click “Alt - }”

COMPOSITION:

- First rule: use small and big text

- Second rule: use “block stile of text composition

- Third rule: create compositions of illustrations like house and 2 trees, TV and playstation

Thank you for purchasing!
